# List of Competency Assessments

*Want a way to show potential employers that you have the skills they are looking for? Consider these assessments!*

## How to Get an Assessment

1. Look through our list and make a note of the assessment number (this will help us to identify which ones you are interested in).
2. We will check to verify if it is a skill that we can assess, and how much time the assessment might take.

## On the Day of Assessment

The assessments take varying lengths of time, some up to 60 minutes. In addition, more time is required to record the results and provide the certificate of proficiency.

1. Visit us with enough time to complete the assessment by lunch (12:30 PM) or evening closing (4:30 PM).
2. Bring your government-issued photo ID.
3. We will verify your photo ID and set you up on an assessment computer.
4. You will not be able to use your phone or open any other window during the assessment.
